 - Etching Cream
 - Designer Tip Kit
- Loew-Cornell® (www.loew-cornell.com)
 - Simply Art™ Brush Set
- Small glass bottle
- Wire, toothpick, scissors
- Jewelry chain, jump rings, closure, jewelry pliers

Instructions:

1. Fill bottle from Designer Tip Kit with etchall cream. Add fine tip and use to write "Escape" on glass bottle. Let set 15 minutes, rinse to remove cream. Insert small piece of rolled paper (add a secret message if desired). Use small piece of wire to wrap around top of bottle to create loop to hang from necklace.

2. Gently mix small amount of white Makin's Clay with small amount of peach from Earth Tones to create marbled clay. Use Sea Shell push mold to create desired shell for the necklace. Use toothpick to make a small hole at top of shell for a jump ring. Let dry. Add jump ring. Apply small amount of Champagne Ice DecoArt Metallic Lustre to highlight shell and add a bit of shimmer.

3. Roll white clay to #2 on Ultimate Clay Machine [approximately 1/8" thick].

4. Use small paint brush to apply Inch Worm DecoArt Americana Multi-Surface Satin paint to turtle image on stamp. Stamp onto rolled white clay.

5. Use round crinkle cutter to cut around turtle. Make a small hole at the top edge with toothpick to add jump ring when dry. Let dry.

6. Sponge back and edges with Deep Turquoise paint. Let dry.

7. Coat with JudiKins Diamond Glaze on front and back.

8. Add jump ring.

9. Hang turtle from center of chain. Hang shell approximately 1" from turtle on one side and message in a bottle about 1 1/2" on other side of turtle. Add closure.
