Starry Night Glassware

Designed by Mark Montano

Mark Montano transforms inexpensive clear glassware into etched works of art with a unique technique featuring etchall® and Sizzix® products.

Materials:

- etchall (www.etchall.com)
- Etching cream
- Etchmask™
- Sizzix (www.sizzix.com)
- Big Shot™ Machine
- Bigz Die
 - Crescent Moon & Stars
- Paintbrush
- Glassware

Instructions:

1. Die cut stars and moons from Etchmask with Big Shot Machine and Crescent Moon and Stars die.
2. Place on back of glass plate and outside of wine glasses as desired.
3. Lightly brush etchall cream over die cut shapes, the goal is to NOT make a thick even coat, but rather a wispy, uneven effect.
4. Let set 15 minutes, remove cream and return to bottle.
5. Rinse to clean and remove etchmask.
